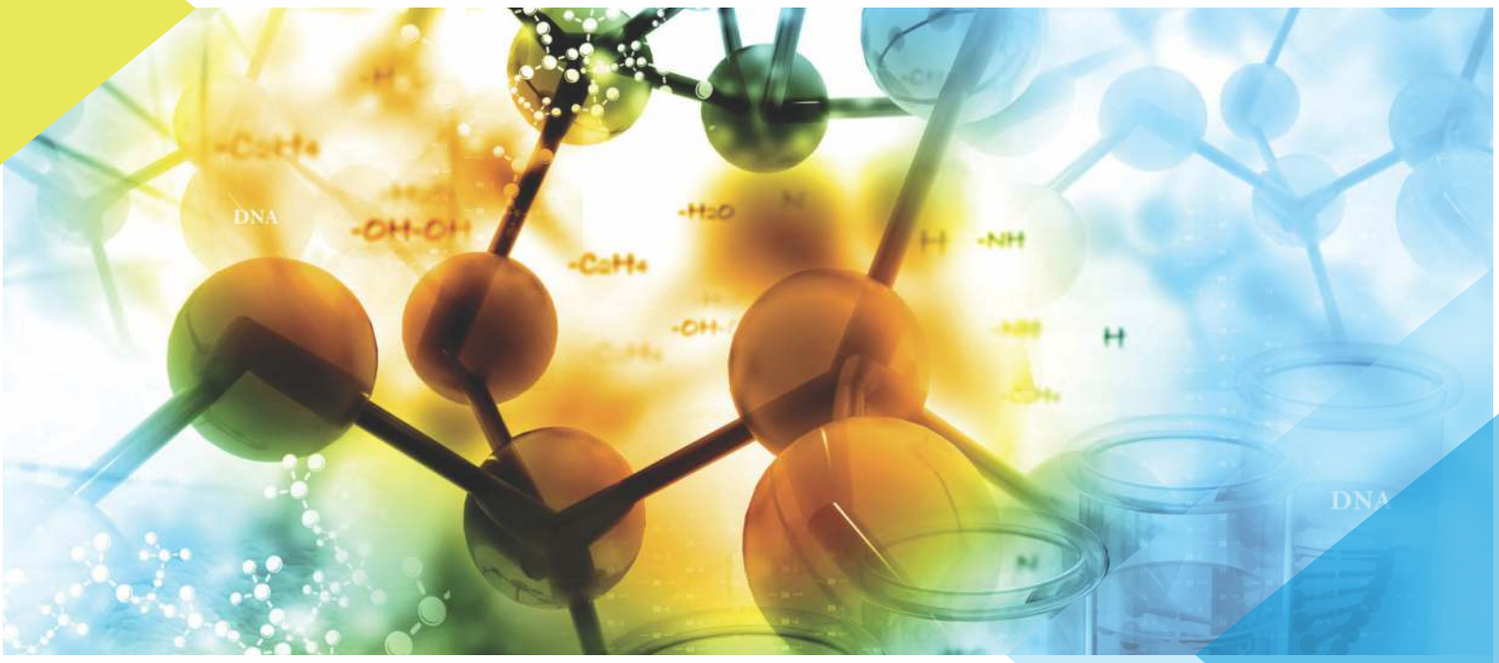
ABOUT US

WELDON BIOTECH (INDIA) Pvt. Ltd. is a company developed to serve the market in INDIA with the most recent technology in the filed of Diagnostic and Medical research. We have over 15 Plus years of experience in Medical Biochemistry and Molecular Biology, Hematology, ELISA Diagnostics and Research Products field. This experience made us one of the best companies in india, although new, offers an excellent technical support to all our customers. We have our presence through a chain of dealers; sub dealers and filed staff throughout India and have contact in almost all requted Hospitals and Research Institutes. We supply a complete range of products, services and solutions for research, analysis, discovery and diagnostics.

WELDON BIOTECH (INDIA) Pvt. Ltd. stated business in year 2000 by distributing laboratory research reagents and ELISA and chemistry kits as sub-dealers of other knows companies in the Indian markets, but soon started to import ourselves to be specialized in our own products. We started with the field of Elisa kits, Immunohistochemistry reagents, monoclonal antibodies and detection kits, molecular biology regents, Transfection reagents and kits (Expression), electrophoresis, PCR kits for Virus, Bacteria and Protozoa, Viral Load kits for HBV and other opportunistic Viruses.

Our core target group for the products are medical labs, medical Institutes, hospital, pharmaceuticals companies, research institutes, clinical corporate house & biotechnology companies. Our applied Science suppliers a broad array of highly specific reagents and test kits for use in the diverse research markets and for industrial applications.

With the support of our expert professionals and their immerse industry experience, we have becomes renowned importers of diagnostics kits and instruments by providing world-class quality and technology with unmatched standards of customers satisfaction.



MANUFACTURING FACILITIES

Weldon biotech is dedicated to develop innovative high quality solutions designed to make diagnostic testing quicker with higher accuracy and reliability for results of the highest quality. We are committed to saving lives by ensuring individuals worldwide have access to timely and correct diagnosis.

An organization capabilities and intent are strongly reflected in the products it manufactures. In other words, the manufacturing competencies and facilities echo truly, the R&D extent and the ability to implement it the the best of the markets it targets.

We supply a Complete Range of

ELISA KITS, CLINICAL CHEMISTRY REAGENTS & INSTRUMENTS

NEPHLOMETER: NEPHSTAR PROTEIN ANALYSIS SYSTEM

Features:

- Latest design, patented technology, the real new generation
- Maximum precision and highest sensitivity
- Results can be reported within 15 seconds to 2 minutes
- A magnetic card is supplied enabling a batch specific calibration curve to be loaded into the NEPHSTAR
- Blank measurement is automatically processed in the same cuvette
- Latex-enhanced immunonephelometric assays are performed for some specificities
- Intelligentized module makes the manipulation extremely facile
- Calibrated against the International Reference Material CRM470
- Electronic Pipette with dilution mode is presented
- Ready to use reagents, Including the latex antiserum
- Temperature controlled reaction chamber
